BISIRANTH S

I am a motivated Full Stack Web Developer with 2 years of experience specializing in front-end development, with a strong focus on cloud-native, scalable applications. Proficient in JavaScript, ReactJS, I have expertise in building responsive, user-friendly web applications and integrating REST APIs. Skilled in low-code tools like WordPress, Elementor Pro, WooCommerce, and Shopify, I also bring knowledge of Flutter, SEO, and Digital Marketing. I am eager to contribute to agile teams adopting CI/CD practices to deliver high-quality software solutions.

EXPERIENCE

ReactJS Frontend Developer
TITO, Chennai
January 2023 – Present

- Developed and maintained front-end components for web applications using **ReactJS, JavaScript**, **Material UI**, and **AWS Amplify**, ensuring a responsive, interactive and user-friendly design.

- Collaborated with back-end developers to ensure seamless integration of APIs and real-time data fetching, enhancing overall performance of the web applications.

- Participated in agile development processes, including code reviews, stand-ups, and iterative development cycles.

Project Title: Responsive Website Development
TITO, Chennai

- Developed a fully responsive website using HTML, CSS, JavaScript, and Bootstrap and ensured compatibility across various devices.

  Optimized the website by implementing best practices for CSS and JavaScript by reducing file sizes and ensuring smooth performance.

- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap.

Project Title: Web Application Design and Authentication implementation
Legaleey Inc., USA.

- Designed and developed a front-end for a web-based document management system using ReactJS, Material UI and AWS Amplify and PostgreSQL, AWS Cognito, S3 for back-end.

- Implemented secure and seamless authentication and authorization using AWS Cognito.

- Used AWS Amplify to seamlessly connect the front-end with back-end for smooth interaction with PostgreSQL database.

- **Technologies Used:** JavaScript, ReactJS, PostgreSQL, AWS Amplify, AWS Cognito, AWS S3, Material UI, Git
